

The regions marked in orange show where people have been infected with TBE between 2011-2020. Cases have been reported in the grey regions as well, however, in those cases the disease was contracted while visiting a different region.*

* Source: Folkhälsomyndigheten, Public Health Agency of Sweden

Området markerat i orange på kartan visar i vilken region som personer blivit smittade med TBE 2011-2020. I de gråmarkerade norra regionerna har fall rapporterats men då har personen smittats i annan region.*
